Tab "A", paragraph 2. e. of referenced memorandum should
be updated to read as follows:

Automatic Data Processing

1. Conversion of Security Index

In FY 1966, the Security Records and Communications
Division completed the conversion of 1,700,000 index
records to magnetic tape in order to establish a computer
[] system. Partial implementation of the
system began in October 1966 with the completion of the
"update program" by the Office of Computer Services.
(The "update program" adds, deletes, and changes records
in the master file.) All of the [] for
other Government agencies [] and many of the
routine in-house [] are now being searched by
computer. (Approximately 5,000 per week.) The program
is being implemented as quickly as we can train employees
in the use of the system.
